**Casa de Maryland – Langley Park Beautification - \$58,524 award (\$42,500 Northern Gateway funds)**

The long-term goal of this project is to build trust between Langley Park residents, particularly youth and the Prince George's County Police Department that will lead to a stronger partnership between the community and the police by eliminating crime hot spots and improve public safety in Langley Park. The ways that this will be accomplished will be: community graffiti cleanup; community mural paintings; community tree and shrub plantings and traffic box art wrap. Casa is in the process of updating the budget and getting agreements executed with stakeholders that will assist in the project.

The implementation plan included the purchase and manufacture of materials, the procurement of permissions, and community engagement during the period in which the COVID-19 pandemic has made such activities impossible and illegal. Contractors are unable to work, and we will miss the planting season, necessitating that all landscaping be pushed back to September and October. Creative community engagement continues but is limited by issues of virtual access and resources in our community.

The following proposed activities have been suspended due to COVID-19 and factors beyond CASA's control:

- community engagement for public art and landscaping interventions
- landscaping and planting;
- all capital improvements on private apartment properties due to residential property management emergency policies;
- streetscape improvements and landscaping on county right of way;

- manufacture and procurement of public art street furniture;
- manufacture and procurement of wayfinding and art signage;
- installation of lighting;
- procurement of materials and equipment for public art and pedestrian safety interventions.

CASA will be moving forward with the Traffic Art Box Wraps however, they are unable to be completed in a way that would include an appropriate amount of community engagement, outreach and input.

**Friends of Greenbelt Museum (FOGM) – Greenbelt Museum expansion - \$50,000 award**

The total cost of this project is \$160,000+ and will add space to the existing museum space to include a visitor and education center by converting a newly purchased residential property next door to the current museum space.

FOGM has been raising funds to support the renovation of 10A Crescent Road to create the Greenbelt Visitor and Education Center. FOGM has also hired an architect to build on the conceptual plans developed by the Neighborhood Design Center and produce architectural and engineering drawings for the construction project. Old Line Architects are working on the final plans, in coordination with various engineering firms, including a civil engineer, a structural engineer, and a geotechnical engineer. They have all made site visits and are conducting various studies and analyses that will inform the final drawings. A final addition size and layout has been finalized and details such as what HVAC system will be most appropriate for the museum collections are being considered. This work is happening in collaboration with both the City of Greenbelt, and Greenbelt Homes, Inc., as all plans developed will need to be approved by them. With the current COVID-19 crisis, the architects and engineers are continuing their work, but because the City and GHI employees are not as available, the approvals process will take even longer.

**Housing Initiative Partnership – Sawa’s Hope Circle - \$75,000 award (Northern Gateway funds)**

Sawa’s Hope Circle paper street that is used as an outside gathering area in Hyattsville at the corner of Greenbriar Avenue and Red Top Road. It is named after community activist Sawa Kamara, who, until recently resided in the immediate area. Red Top Road is home to several multifamily buildings: apartments, rental townhomes and single-family homes that are rental as well. Most have negligent landlords and no amenities. The neighborhood folks used the area now named Sawa’s Hope Circle to hang out. They would drink and litter, etc. creating a negative impact on the community. Council woman Taveras and DPWT cleaned the area up and created a side walk and minimal light as a deterrent. This project would add streetscape benches and a park-like atmosphere.

**Work completed:**

In light of the safety concerns, Neighborhood Design Center and Housing Initiative Partnership are focusing park improvements on: mosaic art for the retaining wall, coordinating art for fence wrap to cover the chain-link fence separating the park from the car wash, site lighting, grading, and planting. These improvements will make a significant impact in the community without providing benches or equipment that might attract unwanted hanging out or vandalism. NDC and HIP identified local Prince George’s County mosaic artists, **Shahin Talishkhan**. **HIP will enter into a contract with Shahin to design and implement the approved mosaic tile design on the concrete retaining wall as well as design a complimentary design for the fence wrap.** Met with Electrician on site to finalize lighting options for the park.

Updated planting plan.

**Work still in progress:**

NDC reworked planting plan for the site and has shared with NZI Construction for pricing. Shahin is developing the design concept for the retaining wall and fence wrap.
